Dr. Jane Henny
Commissioner of FDA
5600 Fishers Lane
Rockville, MD 20857

Dear Dr. Henny:

There are many kinds of milk, such as soy milk, nut milk, coconut milk, oat milk, and rice milk, in addition to cows' milk. The dairy industry should not be allowed the monopoly on the word milk. Milk from cows should be labeled cows' milk, as other types of milk are. Please heed this when you decide this issue. Cows' milk should be labeled just that, as other types of milk are.

Yours truly,

Marjorie Hass
